Core Competencies

- User Experience Design
- Agile Development
- Performance Optimization
- Cross-Functional Team Collaboration
- Continuous Integration/Continuous Deployment (CI/CD)
- S.E.O Implementation
- Accessibility Standards Compliance
- Web Application Security

Technical Skills

- **Front-end:**
  HTML5, CSS3 (including Tailwind CSS, SCSS), Responsive Design, Media Queries, Web Animations, Micro-Interactions, Pixel-Perfect Layouts.
- **Front-end Frameworks & Languages:**
  JavaScript (ES6+), React.js, OWL (Odoo Web Library), jQuery.
- **Back-end & APIs:**
  Node.js, Python, Flask, RESTful APIs, AJAX, JSON, WebSockets.
- **Database & Data Layers:**
  PostgreSQL, MySQL, Firebase, MongoDB
- **DevOps & Workflow Tools:**
  Git, GitHub, GitHub Actions (CI/CD Pipelines), Chrome DevTools, Postman.
- **Performance & Optimization Techniques:**
  Lazy Loading, Code Splitting, Image Optimization, SEO & Core Web Vitals (LCP, CLS), DOM Manipulations.

Soft Skills

- Communicator
- Collaborator
- Team Player
- Analytical

Objective

Dynamic **Full Stack Developer** with a robust focus on **front-end technologies**, pursuing roles to leverage rich experience to contribute to innovative web applications. Open to remote roles or positions based in Bangalore.

Profile Summary

- **Associated as a Full Stack Developer at Odoo India Pvt. Ltd. for over 3 years**, driving efforts to revamp front-end architectures and improve application interactivity by employing cutting-edge coding methodologies and frameworks.
- **Developed and maintained 20+ reusable React.js and OWL components**, enhancing development efficiency by **25%** and ensuring consistent UI across applications.
- **Optimized rich text editing and Website Builder modules**, enhancing load times through JavaScript optimizations, lazy loading, and code splitting. This led to significant improvements in Core Web Vitals (LCP, CLS) and a **15%** increase in SEO rankings.
- **Streamlined CI/CD pipelines with GitHub Actions**, reducing deployment times by **30%** and improving team productivity.
- **Expertise in React.js, Tailwind CSS, JavaScript, Node.js, and Python**, with proven skills in delivering business-critical features on time.
- **Delivered technical sessions on modernizing Odoo's front-end architecture using OWL and React.js**, effectively communicating complex concepts to a diverse audience and displaying expertise in front-end development, performance optimization, and scalable UI design.

Work Experience

Full Stack Developer (April 2022 – Present)
Odoo India Pvt. Ltd., Gandhinagar
Key Result Areas:

- **Leading front-end modernization across multiple Odoo enterprise modules** by adopting OWL (Odoo Web Library), a lightweight, React- and Vue-inspired framework, delivering reactive, component-based UIs using XML templates, class-based components, and hooks.
- **Migrating legacy jQuery-heavy code to modern JavaScript and OWL-based components**, reducing external dependencies and improving maintainability, aligning codebase with long-term architectural goals.
- **Integrating RESTful APIs and WebSockets for real-time data updates**, improving application interactivity and scalability.

Highlights:

- **Reduced page load times by up to 40%** through JavaScript optimizations, lazy loading, and code splitting, considerably improving Core Web Vitals (LCP, CLS) and boosting SEO rankings by 15%.
- **Achieved 100% WCAG 2.1 compliance** across key modules while implementing SEO best practices that improved organic search rankings by **15%.**
- Collaborated with UX designers to deliver pixel-perfect, accessible designs with **100%** WCAG 2.1 compliance.

Projects

IFE GmbH – Odoo 18 Enterprise Theme Development

- **Delivered a fully customized Odoo 18 Enterprise theme for IFE GmbH,** transforming their vision into a production-ready site.
- **Replicated the client's public Magento storefront and Figma mock-ups** with pixel-perfect precision, ensuring functional parity while leveraging Odoo's native capabilities for performance and scalability.
- **Engineered advanced header functionalities**, including mega-menus with multi-level navigation and hierarchical product categorization, enhanced search with autocomplete and category filters, quick-access icons (cart, account, wishlist, contact), and dynamic promotional banners configurable for seasonal sales and marketing campaigns.
- **Designed a branded footer integrating company details**, newsletter sign-up, trust badges, payment icons, and partner logos — all compliant with GDPR and EU consumer laws while maintaining strict brand guidelines.
- **Built a standardized design system defining a cohesive color palette**, typography hierarchy, and reusable UI components, ensuring visual consistency, accessibility (WCAG 2.1), and easier future scalability.
- **Optimized and extended Odoo website snippets** (Product Cards, Carousel, Blog, Newsletter) for brand fidelity, improved mobile responsiveness, and faster loading times.

Education

- **M.Sc. (C.S.) (2020)**
  Makhanlal Chaturvedi University, Balaghat

- **B.C.A. (2017)**
  Makhanlal Chaturvedi University, Balaghat

Personal Details

- **D.O.B.:** 20th March 1996
- **Languages Known:** English and Hindi
- **Address**: Jasmine Green 2, Vaishnodevi Circle, Gandhinagar-382421, Gujarat

Highlights:

- **Delivered a fully customized Odoo 18 Enterprise theme** for IFE GmbH under the Developer on Demand service, transforming their vision into a production-ready site.
- **Executed the entire project within 75–80 hours**, ensuring zero post-launch defects.

FoodPoint – Swiggy-Style Food Ordering Platform

- Developed a responsive, feature-rich food ordering platform using React.js, Redux, and Tailwind CSS.
- Integrated real-time APIs, UI optimizations using lazy loading and memoization to improve performance.

MovieGPT – AI-Powered Movie Recommendation Engine

- Built a movie discovery platform using React.js and REST APIs, incorporating dynamic search, advanced filtering, and a personalized recommendation flow.
- Simulated AI-driven suggestions using mock AI models to demonstrate intelligent user experiences.

Video Streaming Platform

- Created a YouTube-like video browsing and streaming application using React.js, Redux, and Tailwind CSS.
- Integrated the YouTube Data API and implemented API caching strategies to reduce redundant calls and improve performance.

Extracurricular Activities

- **Hackathon Code Reviewer(2024)**
  Assisted as a Code Reviewer for the Odoo x Amalthea Hackathon at IIT Gandhinagar in November 2024, providing mentorship and evaluating innovative solutions from top student teams.
- **Speaker at Odoo Community Days 2024 & Scheduled(2025)**
  Delivered technical sessions on modernizing Odoo's front-end architecture using OWL and React.js, displaying expertise in front-end development, performance optimization, and scalable UI design.
- **Internal Workshop Facilitator**
  Conducted workshops on OWL architecture, modern JavaScript, and legacy code migration, enhancing team proficiency and aligning development practices with current industry standards.
